Projects

Makan Real Estate

- Our real estate website provides a complete platform for buying, selling, and renting properties with detailed listings and high-quality images.
- Advanced search filters help users easily find properties that match their needs and preferences.
- Expert insights and resources simplify the journey to finding the ideal home or investment opportunity.

Book My Show

- BookMyShow is a top online ticketing platform for movies, events, sports, and entertainment.
- I contributed to improving the platform's user interface and overall user experience.
- My work focused on seamless ticket booking, secure payments, and efficient customer support.

Achievements

- Completed multiple academic and personal projects on time with quality results.
- Learned new technologies like Java, Spring Boot, and MySQL independently.
- Maintained good academic performance while working on technical projects.

Languages Known

- English (Fluent)
- Hindi (Native/Bilingual)
- Marathi (Proficient)
